SKILLS

Frontend:
React (Hooks, Styled Components), Next.js, MUI (v5+)

Backend:
Node.js, Express, Sequelize ORM

Databases & APIs:
SQL, PostgreSQL, GraphQL

Testing & CI/CD:
Cypress, GitHub Actions, CI/CD pipelines

Collaboration Tools:
GitHub, Jira & Confluence, MS Teams

Other:
"BugSnag, GitHub Copilot"

PROFESSIONAL SUMMARY

Full-stack software developer with 4.5 years of commercial experience, strong expertise in React, Node.js, GraphQL, and PostgreSQL. Skilled in building scalable applications, improving platform functionality, and delivering high-quality code with a focus on clean architecture and maintainability. Experienced in agile environments including sprint planning, daily stand-ups, and iterative delivery. Adept at automated testing (Cypress) and contributing to CI/CD pipelines to ensure reliable deployments.
Australian Citizen.

EXPERIENCE

Aug 2022 – Aug 2025

Full Stack Developer (React / Node.js / GraphQL)
Access Telehealth

- Developed a healthcare portal improving clinical workflows and patient access.
- Delivered new features in React and Node.js, integrating with GraphQL APIs and PostgreSQL databases.
- Implemented E2E automated tests with Cypress, increasing test coverage across Clinic, AgedCare, and Admin Dashboard modules.
- Designed and maintained database schemas and migrations with Sequelize ORM.
- Contributed to CI/CD pipelines, ensuring reliable deployments.
- Actively participated in sprint planning, retrospectives, and stand-ups.
- Collaborated via GitHub (PRs, branching), tracked progress in Jira, and maintained documentation in Confluence.

Junior Developer (React / Node.js / GraphQL)
Apr 2021 – Aug 2022
Access Telehealth

- Created reusable React components, reducing development time across projects.
- Contributed to backend services in Node.js with GraphQL integrations.
- Expanded and improved Cypress test coverage, strengthening reliability of releases.
- Participated in peer code reviews, ensuring best practices and coding standards.
- Worked closely with senior developers to deliver new product features and system enhancements.

EDUCATION

Certificate 4 in Information Technology (2019)   Holmesglen Institute TAFE, VIC"
Master of Architecture (2015)   Odessa State Academy of Civil Engineering & Architecture
